(From Our Regular Correspondent.) Washineron, D. C., April 2.—Mr. Mills, though still very feeble, was able to come to the Capitol to-day and attended the meeting of the Ways and Means Committee. Some few changes were made in the tariff bill as originally printed, the most important of which was the adoption of what is known as the "horizontal cut," or reduction of the tax on all classes of sugar 20 per cent., and the law as to drawbacks is left as it is. It is said that this modifi-cation satisfies the Louisiana Democrats, and that they will now support the bill. If so, its adoption seems probable, A member of the Committee on Ways and Means says he has canvassed the House and that he finds only twelve Democrats
